

HYDROSIGHT

JOBS – PART TIME FOR STUDENTS

about Hydrosight

Hydrosight Corp. specializes on underwater windows for marine applications and swimming pools. We are a small, young team of engineers and technicians, who love to work with water. Our clients are located in the nicest spots on this planet - we have the chance to make something special and unique for them. Every day of work is different. Each day you go home and know what you have achieved.

Web Programming, including PHP/MySQL

As an applicant you should be available a minimum of 1-2 days per week. We work Mo-Fr. 8:30-17:00. Your pay will be 9-13EUR/h, depending on your qualification. The main place of work is our office and workshop on Lise Meitner Straße in Emmerich am Rhein, Germany. After introduction you might be able to do most of your work remotely. All work can be done in English.

Your Tasks

working on our cms Kirby, and our CRM/ERP Yagii. Find more information here: <http://www.hydrosight.com/k2/other/development>

Your qualifications / Profile

- proven experience in server programming, preferably coding in PHP. Do not apply if you have no previous experience in web programming
- proven client side style sheet layouting
- proven client/server technologies (Ajax) using jQuery.
- profound database and modern web technologies

How to apply

Send an email to hr@hydrosight.com with a short introduction. Don't be shy! We are looking forward to hear from you!

Dipl-Ing(TU) Moritz Meinesz
